

NEK Mountain Trail Guide

Ten years after it was first released, Northwoods Stewardship Center has announced the arrival of the second edition of the Northeast Kingdom Mountain Trail Guide!

This comprehensive, 250-page guide to the mountain hiking trails of northeastern Vermont includes photos, maps, and descriptions of 20 mountains and 27 trail systems, as well as details on the history of trail building, the Civilian Conservation Corps, fire towers, natural history, and much more. Now, this trail guide will help hikers in the NEK, visitors, and residents alike, explore the well-loved and lesser-known trails of our beautiful corner of the state.

The guide can be purchased in softcover (\$25) or e-book (\$5) from the Northwoods website at the following link:
